BRYAN STARTS HIS INVASION

HE IS WHIRLING EASTWARD TO THE "ENEMY'S COUNTRY."

HIS VOICE IS HOARSE.

He Is Trying to Save It for New York, Where He Will Have Some Talking to Do.

MONROEVILLE, Ind., Aug. 10.—Hon. Wm. Jennings Bryan of Nebraska to-day made a grand stride out of the West, whence he sprang toward the heart of the enemy's country, as he has seen fit to designate New York. As the train on the Pennsylvania Central, upon which he traveled, put out of Chicago at a little before midnight demonstrations were made at South Chicago and the other suburban stations, large crowds surrounding the train at the stations and attending its progress by the use of fireworks and brass bands. The train had barely passed the city limits, however, before Mr. and Mrs. Bryan retired to their room in the handsome compartment car. Again did the Bryan party fall to catch up with Hon. and Mrs. R. P. Bland, who left Chicago on an earlier train, intending to join the Bryan party at Alliance.

St. Gilmore Johnson, Democratic National Committeeman for Kansas, and likely to be a member of the Executive Committee, J. F. Malone, of Kansas, Wis. committeeman from that State, and George J. Sternsdorff of Chicago, an old friend of Mr. and Mrs. Bryan, and whose child was by resolution of the Nebraska Legislature some four years ago, named after the rising young Congressman from Nebraska, are traveling with the Bryan party. John A. Croutch of Omaha, a member of the Notification Committee, is also with it.

Mr. Bryan, who is in excellent good over a meeting at Chicago with Hon. A. J. Warner of the Bimetallist League, and with Hon. George W. Peck of Wisconsin. Mr. Peck was until recently against the gold standard, but has since changed his mind and is now a supporter of the gold standard. Mr. Bryan said conditions are more favorable than they were in 1890, when he was elected Governor.

Early dawn found the train at Columbia City, but 120 miles out of Chicago. It was but 4:45 a. m., but there were about fifty people at the depot, and much to their regret, Mr. Bryan came out before the train started and he was in a hurry that he had neglected to put on his collar.

When the train reached Fort Wayne, at 6:30 a. m., there were probably 2,500 people on the platform. Mr. Bryan came out and he was greeted cordially.

To a request that he speak, he replied somewhat hesitantly that they must not expect a speech from him. None of the newspaper men were up yet, he said, and he had promised them that he would not speak in their absence. Besides, he expected to have quite a long ride to New York and "I want to save some of my voice for that meeting."

The crowd died past him in unusual order and all who cared to secured a grasp of his hand.

"I want to shake," said one man, in a loud voice.

"I want to shake," said Mr. Bryan, as he reached for him, "don't shake me on election day."

"Hurry for the next President of the United States," came a voice from the crowd.

"That is sufficiently indefinite," added Mr. Bryan, "to permit all to join," and the three cheers were given. As the train drew away from the depot, some one shouted: "Put old Allen County down for \$500 plurality for Bryan."

IN OHIO.

Short Stops Only Made as the Train Speeds East.

VAN WERT, O., Aug. 10.—At Monroeville, the last town in Indiana, there was an enthusiastic crowd of 250 people. Dixon was the first town reached in McKimley's State. It is but a hamlet, and there were only about a dozen men and one woman at the train. The lady was bareheaded and in morning working attire, but she insisted on shaking hands with Mr. Bryan.

At Convey there were 200 more in waiting, and when the train pulled into Van Wert, the county seat of Van Wert County, at 6:30 a. m., there were 2,000 people assembled around the depot, whose cheers drowned the music of the brass bands. The first of the crowd to greet Mr. Bryan were the two remarkably handsome and enthusiastic girls wearing silver collars and black visor bands. One man in soldier's uniform clutched Mr. Bryan's hand long enough to promise him Ohio for \$50,000. People climbed over and under the cars with the most reckless ease in their zeal to get near the car platform. No one had taken the precaution to see that the Bryan car was at the rear of the train. In fact, it was about five feet from the platform, and this fact interfering somewhat with the plans of the cheering crowd. As the train pulled out three cheering cheers were given, and Mr. Bryan, at the train who shook hands and saluted with three cheers as the train moved on.

HIS HAND SORE.

Mr. Bryan Bids the People to "Go Light" With It.

FOREST, O., Aug. 10.—At Washington, O., there was a momentary stop and about 100 people extended the glad hand to Nebraska. Considerable amusement was occasioned by the fact that all along the line Judge Prentiss of Chicago, who, with the Illinois committeeman, Mr. Gehl, was traveling with Mr. Bryan, was mistaken for Silver Dick Bland.

At Dunkirk, O., about 500 people extended farewell. The train stopped and a clamorous and all of those present failed in their strenuous efforts to stop the train. In the day, the candidate, who was even then friends to go light with that band of his friends, the Chairman of the State Central Committee, introduced Mr. Bryan at Dunkirk, and when quiet was given with cheers "Ladies and Gentlemen—I am very glad to meet you this morning and glad to notice the interest which the people of this country are taking in this campaign. (Applause.)

"If my judgment is the most important campaign that the people of this country

MEXICANS WATCHED HIM.

And Garratt Had to Give Up His Stolen Gold Bar.

SAN DIEGO, Cal., Aug. 10.—A special to the Union gives a sensational sequel to the famous gold bar robbery which occurred at Ensenada nearly a year and a half ago, and which caused the imprisonment of James P. B. Garratt and Allan Pratt for sixteen months. After his release Garratt came to this city, and on the 5th inst. left here for Ensenada.

The Mexicans, warned by detectives, were on the watch, and this morning when Garratt, accompanied by three men, set out to dig up the bar, they were followed by a party of guards, with whom was Gov. Sangines. The gold-seekers found themselves surrounded and overpowered by rifles. Garratt, eluded with fear. At Gov. Sangines's demand he disclosed the spot where the bar was hidden. The bar is worth \$2,500.

TERMIER TIRED OF LIFE.

He Took Morphine Because He Owed His Attorneys.

With the remark that he was tired of life Frederick Termier, 55, a bricklayer, left the company of some fellow-boarders at 2338 Chestnut street, Sunday afternoon, and went to his room. He was found dead at 7 o'clock in the evening. An empty morphine bottle explained how he had taken his life.

Termier has been trying to get a divorce and owed 100 to attorneys. This fact worried him very much and caused the men whom he left Sunday afternoon to feel uneasy about him.

While they were discussing Termier's de-

As the train pulled out three cheering cheers were given, and Mr. Bryan, at the train who shook hands and saluted with three cheers as the train moved on.

At Convey there were 200 more in waiting, and when the train pulled into Van Wert, the county seat of Van Wert County, at 6:30 a. m., there were 2,000 people assembled around the depot, whose cheers drowned the music of the brass bands. The first of the crowd to greet Mr. Bryan were the two remarkably handsome and enthusiastic girls wearing silver collars and black visor bands. One man in soldier's uniform clutched Mr. Bryan's hand long enough to promise him Ohio for \$50,000. People climbed over and under the cars with the most reckless ease in their zeal to get near the car platform. No one had taken the precaution to see that the Bryan car was at the rear of the train. SOME RELIEF FOR ST. LOUIS.

A PLEASANT BREEZE REDUCES THE TEMPERATURE.

THE EAST STILL SUFFERING.

Owing to a Miscalculation

CHICAGO SNOOZES HEAT.

THE WARM WAVE STILL HOLDS ITS OWN FROM NEW YORK TO WESTERN KANSAS.

CHICAGO, Aug. 10.—The latest reports show that the total list of victims of heat prostration Sunday numbered sixty-five. Of these twenty-two are dead, ten are expected to die and three were driven insane by the heat.

Michael Ehrig attempted to take his life by cutting his throat with a razor, and is at his home in a critical condition.

Fred Krohn took poison and died at his home.

On one of the bridges the police had a struggle with a Swede of giant strength, who attempted to throw people into the river. The heat had made him crazy.

On Sunday a southwest wind prevented the crowded tenement houses from being actually turned into morgues, and the better homes into hospitals. For three days the wind had scorched and burned the city with all the heat of the southwestern plains.

At midnight Saturday night the heat registered 90 deg., and in the public parks thousands were sleeping on the grass. During Sunday afternoon, after a brief respite, there was a gradual increase in the heat, which made the interiors of the houses comfortable to bakers' ovens, and the atmosphere out of doors like that of a Sahara.

It began to grow uncomfortably warm here to-day at early dawn, and as the blazing sun pushed its way up over Lake Michigan the intensity of the heat was increased hour by hour. To make life still more unbearable a steamy hot wind, as baneful as a sirocco from the sands of Sahara, blew over the city from the marshes and swamps beyond the southern limit. It was a blighting wind, and men sought to escape from it.

It was terrible, even on the lake front and in those quarters of Chicago where wealth and plenty abound, but in the poverty stricken tenement districts the agony was awful to contemplate. All night long the miserable wretches sweated and panted in vain for a breath of refreshing air. They slept, or tried to sleep, by thousands on the sidewalks and on the paving stones, while the steamy vapors rose from the garbage heaps, spreading death and disease. The city ambulances and patrol wagons from the police stations were kept on the run all night long, bearing victims of the heat to the hospitals.

This morning men walked through the streets without coats or vests, and panted for want of fresh air. Prostrations from heat began to be reported as early as 5 o'clock. Animals overcome by the heat lay dead in almost every ward in town. They were so numerous that the garbage men could not keep the streets clear of them.

The coroner's office was busier to-day than it has been for years. There were not enough deputies to do the work. All of yesterday's heat victims and a part of those who succumbed Saturday were on the books awaiting inquests. In order to get through with the work the coroner sent out a notice that in all cases of death from the excessive heat physicians' certificates could take the place of inquests.

HEAT IN OHIO.
Fifty Members of the National Guard Prostrated.

CLEVELAND, O., Aug. 10.—One death and at least sixty prostrations from heat were reported to the authorities Sunday. Fifty of the prostrations occurred at Camp Moses, Cleveland, where the Ohio National Guard was in dress parade. The camp is in a depression near the lake and is surrounded by a forest, which cuts off the lake breeze. When Gen. Astine had the regiment form into a brigade the hospital corps of both regiments marched in the rear. Immediately men began to fall from the ranks, and the hospital corps was kept very busy. While the rain poured in torrents, filling cellars and flooding streets, the accompanying wind uprooted trees, ruined crops and did much other mischief.

NEW YORK IN MISERY.
The Temperature High and the Humidity Fifty-Five Per Cent.

NEW YORK, Aug. 10.—Although the sky is overcast, there was little apparent relief at noon to-day from the intense heat which has prevailed without interruption since Saturday. At 1 o'clock the thermometer was 83 deg., according to the official thermometer, but on the street it was all the way from 85 to 90 deg. The humidity, 55 per cent, made the atmosphere oppressive and stifling. The rain began to reach police headquarters early in the day, the first installment having been reported since midnight. In Brooklyn numerous cases of sunstroke have been reported, and from points throughout the State tales of suffering have been received. At Hoboken, N. J., two deaths are recorded. At Orange one man died of heat and at Brunswick, N. J., three deaths occurred. Providence, R. I., reports three deaths and two prostrations.

Boston Bears It Well.
BOSTON, Mass., Aug. 10.—After a week in which the wind played a prominent part in keeping the heat from becoming too unbearable Sunday it was the thermometer, which at dawn was at 70 deg.

PEORIA IN PAIN.

PEORIA, Ill., Aug. 10.—Sweating hot weather continued this morning unabated. There was scarcely any relief during the night, and this morning at 9 o'clock it was 84 deg. in the shade. August Buchner, who was prostrated during an excursion yesterday, died this morning at 7 o'clock, making a third death from the heat in thirty-six hours.

Sweating Kansas City.
KANSAS CITY, Mo., Aug. 10.—This, the hottest day of Kansas City's hot spell, opened with no prospect of relief. The outlook, in fact, is for the hottest, most intolerable weather that the City of the West has ever experienced. But little air was stirring, and the sun, if possible, beat down upon the earth with even more intensity than it had heretofore. Street thermometers at 9:30 a. m. averaged about 89 degrees.

Galactic Connecticut.
NEW HAVEN, Conn., Aug. 10.—Connecticut is still suffering from intense heat, and according to the Weather Bureau, there is little or no prospect of relief. In New Haven many prostrations have occurred. Reports received at the office of the Associated Press indicate that the State is suffering. Men and beasts in every section have been overcome and crops suffered greatly.

Wichita's Weather.
WICHITA, Kan., Aug. 10.—The weather has been uniformly hot here for ten days, with little relief. Yesterday the thermometer ranged higher than ever, at night a refreshing breeze came up. To-day the heat has returned in all its force. Sunday was a almost unbroken. The climate, but there is much illness as a result of the extreme heat.

Storm at Detroit.
DETROIT, Mich., Aug. 10.—A heavy wind and thunderstorm which swept over this city last evening resulted in the drowning of at least three men in the Detroit River and several yachtsmen had extremely narrow escapes after cutting their craft. Two others were drowned during the afternoon from other causes.

Sunstroke at St. Charles.
ST. CHARLES, Mo., Aug. 10.—Several sun strokes were reported yesterday. A stranger was picked up on Main street and taken to the City Hospital. Several weeks ago from Nashville, Tenn., was prostrated and died last night.

No Relief at Cincinnati.
CINCINNATI, O., Aug. 10.—The heat continues unabated, and the atmosphere is clear and the atmosphere humid. No prostrations have yet been reported. One death is added to the list, however, that of Charles Smith, saloon-keeper.

Cooler in Milwaukee.
MILWAUKEE, Wis., Aug. 10.—Ninety was the highest point touched by the mercury Sunday, a heavy rain lowering the temperature several degrees, and causing relief in the five days of hottest weather Milwaukee has experienced since 1873.

At Fort Wayne, Ind.
FORT WAYNE, Ind., Aug. 10.—The temperature here at 10:30 was 84 in the shade. Several cases of sunstroke were reported yesterday, but no fatalities.

Other Hot Places.
SPRINGFIELD, Mass., Aug. 10.—Sunday was the hottest day in this city for several years. The thermometer for the week was 88 deg. in the shade. In Holyoke it was 88 deg. at noon.

BLOOMINGDALE, Ill., Aug. 10.—The heat Sunday exceeded that of any previous day of the season. The mercury stood at 101 in the shade at 3 p. m. For several hours there was no prospect of relief. The suffering was intense. Two deaths are ascribed directly to the heat.

LACON, Ill., Aug. 10.—Sunday was a record day for the heat here. The thermometer rose to 106 in the shade. The excessive heat for the past two weeks has practically ruined business.

stant drinking of beer and whisky. In not a single case where the victim's system is saturated with alcohol has it been found that he died. The total number of deaths for the week ending Aug. 10 was 273, which was three more than the record for the week ending Aug. 10, 1895, the total deaths were 18.

The year ending Aug. 10, 1896, breaks the heat record in the mortality annals of St. Louis. It was a few days off from the total deaths aggregated 2,335, the heaviest up to that time or since in the city's history.

And the daily record since Aug. 1 is the most calamitous in years, the total being 26 deaths.

MANY DEATHS CONTINUE.
Victims of the Heat Who Were Not Able to Rally From the Shock.

Total heat prostrations Sunday and early Monday morning were very numerous. The Morgue is becoming crowded with bodies, although inquests are being held as rapidly as possible.

John Ruperts, Deputy Marshal in the First District Police Court, was prostrated by the heat at 3:45 Monday morning. He was removed to the City Hospital, where he died at 4:10 a. m. He lived at 3425 Texas avenue.

Frank Tobin, laborer, 221 Walnut, was found dead in his room on the second floor of the hotel where he was lodging. He died at 10:30 a. m. He lived at 221 Walnut.

Barney Dixon, colored, died from heat prostration in his room at 713 North Third street early Monday morning.

John F. Tuck, colored, died at 210 South Second street, was overcome by the heat and died Sunday night.

Miss F. Tuck, colored, died at North Leffingwell avenue and Wash street at 4 o'clock morning were very numerous. The Morgue is becoming crowded with bodies, although inquests are being held as rapidly as possible.

RAIS FOR OFFICIALS.

They Will Cost the City \$200 a Month, Besides the Purchase Price.
If City Hall officials are really as under the impression that they have a right to attach electric fans to the electric companies because they have to furnish constant service, they are mistaken. It was pointed out by President McMath of the Board of Public Utilities that a few days ago in the Post-Dispatch that the city's contract with the electric companies was specifically for lighting and no other power.

In many of the City Hall offices are fans and in a number of offices there are several. Several days ago the Comptroller requested Superintendent of Lighting A. J. O'Reilly to address a letter to each of the electric companies and ask them what they would charge for furnishing fans.

The Missouri Electric Light and Power Co. replied that it would furnish the power at \$5 per month for each fan.

Chief Engineer O'Reilly went to work to see how many city offices would want fans and he has so far gotten returns that show that the city will have to put up six a month to furnish fans to its various offices.
